

## ***JAMAICA THEOLOGICAL SEMINARY***

### ***Notification of Acceptance/Denial***

Based on the decision of the Admissions Committee each applicant is informed in writing as to his/her status and the nature of acceptance or the basis on which it was denied. If an applicant is accepted the status may be either full (regular or mature), or provisional. Full acceptance means that the applicant has met all the matriculation requirements. Provisional acceptance indicates that the applicant needs to comply with one or at most two matriculation requirements for full acceptance. In cases this might require the individual to ensure that his/her transcripts are received in the Admissions office.
